DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 recites a "next user interface". This is vague and indefinite because there is no reference point with respect to "next". No other user interface was recited.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 12-21 and 23-25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hunt et al. (Hunt; 6,094,476; cited and applied for the first time).

Hunt plainly teaches the claimed invention. The claimed initial user interface reads on the speech UI of Hunt. Hunt teaches that upon monitoring the user response to prompts/responsiveness parameter that a next U/I is selected where the claimed next U/I reads on either the ambiguity resolution UI or the DTMF UI.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2614

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 12-25 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Bennett (US 7,047,197 B1; cited and applied for the first time).

Bennett also plainly teaches the claimed invention. The claimed initial user interface reads on the voice user interface of Bennett. Bennett teaches that upon monitoring the user response to prompts/responsiveness parameter that a next U/I is selected where the claimed next U/I reads on the dynamic changes of the operational characteristics of the voice user interface. Refer to the Abstract and to column 6, line 28 – column 9, line 40. The dynamic changes of the operational characteristics of the voice user interface is read as repeating the steps (see specifically column 7, line 65 – column 9, line 28).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kemble et al. teach dynamically adjusting speech menu presentation style.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
